

Snap Command Demo

Welcome to the Snap Command App demonstration! This guide is designed to familiarize you with the basic commands that simplify editing your videos.

Key Commands:

- **Snap Action:** Sets the starting point for your take. It's optional; if not used, Snap Commands defaults to the end of the previous command or the recording's start.
- **Snap Keep:** Say this at the end of your take to keep the footage.
- **Snap Cut:** If you make a mistake during your take, use this command. The footage from that point will be discarded.
- **Snap Merge:** A more advanced feature for correcting errors without restarting the take. It's a little complex to explain, but the demo will make it clear.

Recording Instructions:

- Record the script in one session. You can use a video camera or just an audio recorder.
- Start recording once and keep it recording until you complete the script.
- The script includes a series of tongue twisters, followed by a section demonstrating the Merge command.
- Commands like [Snap Action] in the script should be spoken clearly and audibly.
- Instructions are underlined and highlighted in the script and are not to be read aloud.

Key Reminder:

When a mistake is made say “Snap Cut” and begin the tongue twister again.

In case there is any confusion about what you should do, [here is my RAW recording of this script](#) and [here is the result from using snap commands](#) made by stitching together the takes without any additional editing.

Here we go, let's record!

[Snap Action]

Peter Piper picked a peck of pickled peppers. A peck of pickled peppers Peter Piper picked. If Peter Piper picked a peck of pickled peppers, where's the peck of pickled peppers Peter Piper picked?

[Snap Keep]

[Snap Action]

She sells sea shells by the sea shore. The shells she sells are surely seashells. So if she sells shells on the seashore, I'm sure she sells seashore shells.

[Snap Keep]

[Snap Action]

I saw Susie sitting in a shoeshine shop. Where she sits, she shines, and where she shines, she sits.

[Snap Keep]

OK, let's stop using Snap Action. You really only need it if you're talking between takes. Otherwise, Snap Commands can automatically remove dead air.

Irish wristwatch, Swiss wristwatch

[Snap Keep]

The sixth sick sheik's sixth sheep's sick.

[Snap Keep]

Now let's try to the snap merge command.

I pledge allegiance to the flag of the United States of America; and to the democracy...no that's not right.

[Snap Merge]

and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

[Snap Keep]

Now that you've recorded the script, [click here to see how to process your recording with Snap Commands](#) to extract your good takes.
